

APPENDIX IV

HISTORIC PRESERVATION ASSESSMENT

Pursuant to the requirements and guidelines of Section 106 of the National Historic Preservation Act of 1966, Executive Order 11953 and Section 101 (b) (4) of the National Environmental Policy Act of 1969, the following is a summary of historic preservation considerations regarding the plans and policies contained in the land use and housing elements.

- (1) Abstract: The purpose of these elements is to provide a guide for accommodating the expected growth of Vance County in a manner which promotes desirable and suitable use of physical resources. The factors which influence housing are related to future needs. The plans and policies included would, if implemented, improve the living environment of the residents of Vance County.
- (2) Impact on Historic Properties: The implementation of the housing and land use elements will have a beneficial impact on historic properties in Vance County. It is the intent of the plan to upgrade and/or preserve all identified historic properties. This plan also suggests that a complete historic survey be completed, and followed by a comprehensive historic preservation plan. This would ensure that all historic properties are identified, as adverse or beneficial effects resulting from this plan cannot be measured for those historic properties which have not been identified.
